

# Christian Hall

## Product Engineer

### EXPERIENCE

#### Senior Software Engineer

September 2016 - Present, Nashville, TN

GoNoodle, Inc.

- Lead software development efforts across web and mobile platforms with React and React Native.
- Built out and maintained features for large, complex web apps that served over a million users worldwide.
- Helped plan out and implement several major infrastructure overhauls to the codebase, including moving away from a monolithic app to a split front end and backend and a migration from Marionette to React.
- Collaborated with product owners, designers, and engineers on a daily basis to make sure quality features users would love were shipped in a timely manner.

#### Lead Developer

July 2015 - September 2016, Jackson, MS

Good Design & Code

- Served as project manager and lead developer on multiple projects that were responsible for the majority of the agency's revenue.
- Introduced team to best practices and tooling used in modern web agencies for both development and design.
- Managed a variety of responsibilities on projects from technical consulting and implementation to design advice to client relations.

#### Lead Front End Engineer

May 2014 - July 2015, Ridgeland, MS

EdgeTheory

- Designed and developed both internal and external apps using modern front end tooling which significantly enhanced workflows and increased sales.

### PERSONALITY

- Focused on building usable and maintainable products.
- Experienced in working across a variety of disciplines in startups.
- Skilled in coordinating small development teams in a leadership role.
- Adept in communicating with a diverse range of colleagues and clients verbally and in writing.
- Dedicated to lifelong learning in languages and development.

### EDUCATION

#### Bachelor of Science in Software Engineering, Summa Cum Laude

Mississippi State University, 2010-2014
